

The Netherlands Institute for Neuroscience

The Netherlands Institute for Neuroscience (NIN) is an institute of the Royal Netherlands Academy of Arts and Sciences (KNAW). The NIN carries out fundamental and strategic research in the neurosciences with an emphasis on research of the brain and the visual system.

Within the research group of Prof Dr. C. Keysers 'Social Brain Lab' at the NIN, one position is available for a

PostDoc (m/f) **Fulltime (38 hours/week)**

Project information:

The project concerns the neural basis of the simulation of actions and sensations, and will involve fMRI experiments at 3T and later 7T using advanced techniques (repetition suppression, multivariate analysis and/or EEG/fMRI combination).

Requirements:

We are looking for an excellent and highly motivated candidate with a PhD in neuroscience and a strong track record in fMRI experiments and data analysis. Publications in top tier journals, fMRI expertise and excellent data analysis skills are required in addition to good English writing skills.

Appointment:

This position involves a temporary appointment for 2 years that can be prolonged for another 2 years based on a mid-term evaluation of performance.

Starting date:

From the 1st of November 2009 or by arrangement.

Salary:

Depending on training and work experience the maximum gross monthly salary coming with a fulltime appointment will amount to a maximum of € 3.678,- (scale 10 of the Collective Agreement for Dutch Universities; CAO-NU), excluding 8% holiday allowance and a 8.3% year-end bonus. We offer an extensive package of fringe benefits.

Location:

The Netherlands Institute for Neuroscience (NIN), Amsterdam.

Application deadline: October 10, 2009.

Applications: (including a curriculum vitae and two letters of recommendation) can be sent by regular post or e-mail to Prof Dr. C. Keysers, NIN, Meibergdreef 47, 1105 BA Amsterdam; e-mail:

c.keysers@nin.knaw.nl.
